

AirPath™

Dry floors in minutes – not hours!

The AirPath takes carpet and floor drying to a new level of speed and efficiency. The 40 mph airstream dries floors faster than any other type of airmover. Here's why:

- Directs warmer, drier air from above down and out across large spaces
- Dries in a 360° pattern that reaches more than 12 feet in all directions
- Directs airflow under and around furniture and other obstructions

Item #F377
\$595 Suggested List U.S. Funds

Product Specifications

Model	F377
Weight	38 lbs. 17.3 kg
Dimensions H × W × D	14.7 × 25.4 × 26 in. 37.3 × 64.5 × 66 cm
Amp Draw	7.5 amps
Speed	2 speed switch
Power	746 W (1.0 HP)
Cord length	25 ft. 7.6 m
Fan	8 blades
Construction	Rotomolded housing
Casters	Plastic (locking)
Safety	ETL listed to UL and CSA standards

Product Features

- Directs air uniformly in all directions across floor surfaces for fast drying
- High velocity 40 mph airflow and patented 360° outlet grill design
- Rugged 1 HP motor with 2-speed switch
- Rotomolded housing is durable, stackable and highly portable – includes comfortable integrate handle.
