

Over 50 Years of Quality

Metal Master® 20

Over a quarter century ago, Van Mark introduced the world's first cam-locking system in a portable brake. Through time it has proven to be the strongest and most reliable locking mechanism. Now Van Mark has done it again with our Metal Master® 20 incorporating the best locking system with the deepest throat in the portable brake industry.

Contractor Model MM1050 shown with optional Pair of Multi Gauge™ 3978 (see page 3) and UniStand EZ-Go™ USA2EZ

Optional TrimCutter™ works on the brake cutting all your materials down to size.

**Measures 5/8" Bend
20 3/8" Throat**

DEEPEST THROAT at 20 3/8"

- Strongest computer engineered castings for unmatched strength.
- Deepest throat available for working with wider materials.
- Dual hollow-core Power Lock™ bar for better clamping force.
- Increased bending radius. Make 180° hem bends easier than ever.
- Adjustable clamping jaws with the largest opening in its class.
- Ergonomic heavy-duty bending handles for improved leverage.

Metal Master® 20 Heavy Duty MM1051

Dual hollow-core lock bar!

Power Lock™ bar with increased bend radius adds strength and allows easier hemming!

Mark II™ TRIMMASTER®

Building upon the reputation of the Mark I Series™, the Mark II TrimMaster® offers leading technologies such as the POWERSlot™ hinge, easier bending, making smaller "J" channels and hollow core hinge extrusions for added strength. We've also left you the ability to make fine-tune adjustments to this brake, though you may never have to. Ultra High Molecular Weight (UHMW) polymer wedges are independently adjustable and replaceable should the occasion ever arise.

Shown with optional Pair of Multi Gauge™ 3978 (see page 3)

Contractor Model TM10 Shown with optional UniStand EZ-Go™

**Measures 5/8" Bend
14" Throat**

Featuring POWERSlot™ hinge for tighter bends & easier hems

Dual hollow-core lock bar!

Power Lock™ bar with increased bend radius adds strength and allows easier hemming!

- Power Lock™ bar provides stronger clamping along the entire bending edge for crisp, clean bends without oil canning, or warping.
- Increased bending radius. Make 180° hem bends easier than ever.
- Powder-coat finish provides superior protection from the elements, while eliminating UV fading and oxidation.

Mark II TrimMaster® Heavy Duty TM10HD

Optional TrimCutter™ works on the brake cutting all your materials down to size.

Mark I Series™

The Mark I Series™ has a long history and solid reputation as the best workhorse brake in the industry. Computer designed components provide superior durability while maintaining lightweight portability. This world class brake has fewer parts resulting in a long trouble-free service life. No need to adjust this brake daily, or even monthly as the unique cam locking feature clamps to the thickness of the material, not to a factory preset.

**Measures 3/4" Bend
14" Throat**

Mark I Series™ Heavy Duty M10HD

Patented Cam-Lock system requires little, or no adjusting.

TrimCutter™

Model 3017

“cuts alum., copper, galv. steel, zinc & stainless steel”

Does Not Ride Off Tracks During Cut

TrimCutter™ uses a unique 4-point track bearing system to ensure tool doesn't ride off the brake during cut. Low profile grip area allows you to direct power along the plane of the cut resulting in one smooth motion that leaves factory edges every time.

TrimFormer™

Model 3015

Model	Description
3015	TrimFormer™ Tool

Patent No's. 6,000,268 6,233,995

TrimFormer™ offers the ability to strengthen & beautify trim work into designs that distinguish your work from others.

Optional Bead Form Dies 3044

Optional Crown Mold Dies 3025

Rib Form Dies 3019 (included)

Brick Mold Dies 3018 (included)

UniStand EZ-Go™ model USA1EZ (left), works with 14" throat brakes & Trim-A-Table™ saw tables. Model USA2EZ (right), was designed specifically for Metal Master® 20 brakes having a 20" throat.

Model USA1EZ
14" Throat Brakes

Model USA2EZ
20" Throat Brakes

fits these two stands for use with Metal Master® 20 brakes

Engage wheels to move tool around, disengage to start working.

Model USA1

UniStand™ USA1 (left), fits all Van Mark Brakes up to 14" throat & TAT50/TAT60 saw tables. Model USA2 (right), fits Van Mark brakes with a 20" throat.

UniStand™
Adjustable
Patent No. 6,854,314

Model USA2

UniLeg™ was designed with the versatility you need to support many of your Van Mark tools. Single-user setup is fast & easy, while providing solid footing and trouble free service.

UniLeg™ UNL1
fits the following:

- 14" throat VM brakes
- Trim-A-Brake I & II
- Trim-A-Gutter™
- Trim-A-Table™

UniLeg™ UNL2
fits the following:

- 20" throat VM brakes
- Metal Master® 20 Contractor
- Metal Master® 20 Commercial

Products and specifications subject to change at any time

Coil Dispenser™

Model CD24

Coil Dispenser™ pays for itself time and again. No unraveling coils or wind-blown damage. Unit saves time & money by allowing material to be fed directly into most brakes/slitters. Also works with TrimCutter™ & QuickScore™.

Saves Time & Money!

Coil not included Shown w/optional TrimCutter™

Coil Dispenser™ feeds materials into most brakes and slitters, preventing wind-blown damage and waste.

Model 3978

Designed to make your job easier by assisting with determining both the angle of the metal being bent and lining up your TrimCutter™ cut-off point. Fits Mark I, TrimMaster® & Metal Master® Brakes.

QuickScore™
Patent No. 6,755,067

QuickScore™ scores light gauge alum. on the brake allowing downward separation of material. Tool uses standard utility blades.

Model 3016

Steel Leg Kits

Model	Fits
3000	Trim-A-Brake™

Xtreme™
SHOP STAND INCLUDED
Pat. No's. 6,435,460-0437,864

- Power Lock™ bar provides stronger clamping pressure along the entire bending edge for crisp, clean bends without oil canning, or warping.
- Increased bending radius simplifies hemming and over-bending resulting in faster, easier operations. Great for the metal roofing/building industry.
- Powder-Coat finish provides superior protection from the elements, while eliminating UV fading and oxidation.
- Computer designed components, long service-life, & strongest capacities.

Industrial Combo Slitter

Model	Weight
SCI48	265 (120.5 kg)

Slitting your sheet stock down to size is now easier and faster than ever. The multi-roller table allows full sheet run-off onto any surface. This shop/job site tool sets up quickly and will save time and money.

- Cuts commercial metals on the job.
- Leaves a factory-quality edge.
- Adjustable knives/booster blocks.
- Each knife has double edge.

System comes standard with 115 volt motor package. Multiple roller exit table, UniStand™ Adjustable support stand and heavy-duty base.

Trim-A-Slitter INDUSTRIAL SERIES

Model
S48CB

Trim-A-Slitter™ is engineered to slit, rib-form and stiffen most light-to-heavy duty coil and sheet materials. The Industrial Series is designed for on the job slitting of 24" to 72" wide commercial sheet commonly used in metal roofing/building construction. Trim-A-Slitter™ leaves a clean factory edge, every time.

Optional Power Package No. 3521

Slitter Power Packages:
Gear Motor, Base, Coupler & Hdwr

Model	Length	Arbor	Weight
S36C	36" (91.4 cm)	2"	103 (46.8 kg)

Precise Cuts Every Time!

Extends from 8 to 18 Feet!

Saw not included

We won't use smoke & mirrors to sell you on this next generation of the best selling saw table ever! The TAT60™ has a fully captured saw track along with a 6 ft. "big boom" and a unique "drop-in" saw feature to go along with 2 support wings for accommodating wider materials. A dual scale protractor makes short work of positioning the boom for left and right cuts.

All the Benchmark Features of the TAT50, Plus.....

- 6 foot Saw Boom Allows cuts as shallow as 2/12 pitch (8" double-lap).
- Redesigned saw rails Stronger rails help prevent sagging during cut.
- Fully captured saw rails Provides complete saw control for precision cuts.
- Quick-Adjust saw rails Gets you up and cutting fast and easy.
- Dual wing supports Designed for today's wider siding and soffit.
- Extends from 8' to 18' Perfect for cutting fiber-cement siding.

Shown With Optional Steel Legs No. 3001

Toggle-Lock system provides positive clamping without beating the handle.

The Entry Level Utility Brake!

Our most versatile utility brake, the Trim-A-Brake II™, was designed for our contractors who are constantly on the go. This light-weight brake loads into the truck quickly for use among multiple crews and requires little setup or maintenance. For making basic shapes, this is the perfect brake for use in the shop, or on the job site and can bend anywhere between 0° to 130° with ease.

- Hinge pocket helps prevent scoring damage to components.
- Rigid "I" beam base rails ensure brake stays in calibration.
- Full loop handle provides uniform bending along entire piece.
- Material stops allow repeat bending without re-measuring.
- Brake has 3/8" x 13" throat & vinyl strip for protecting material.

Bend Trim Like the Professionals

Whether you're a seasoned pro or just getting started, the Trim-A-Brake II™ will have you bending trim quickly and easily letting you focus on your work, not the tool.

The SureCut 90™ and the SureCut 45™ saw tables are designed to provide fast reliable service when cutting siding, fascia, studs, soffit, trim moldings, fiber-cement and decking planks of all types.

- Perfect for Lumber Yards and DIY customers.
- Lightweight aluminum construction for ease of use.
- Accommodates most circular saws on adjustable tracks.
- Available in two models, SCT90 and SCT45.

Only 45" long for easy handling and stowage!

Steel Legs no. 3020

The industry's strongest magnet assembly, combined with a bigger pick-up area, make this rugged tool the best value for the money. Keep your job site from digging its nails into your cleanup routine with NailHawg™

- 1.0"
- 1.5"
- 2.0"
- 2.5"

Generous debris pick-up area Multiple wheel heights

Model	Swath	Weight
NH25	25" (63.5 cm)	18.5 (8.4 kg)
NH31	31" (78.7 cm)	20.4 (9.3 kg)

Features & Benefits

- Unique foot or hand debris release-ergonomic for the tool user.
- Lifetime magnetics with 140/160 lbs. dead lift-gets nails others miss.
- 7" steel wheels w/rubber tread & bearings-won't seize up on the job.
- Multiple height adjustments from 1 to 2½"-not limited to paved areas.
- Full anodized body for rugged durability-outlast cheaper imitations.
- Unit stands upright when not in use-makes tool easy to spot and use.

Tune-up Parts

Van Mark Products
replacement parts & tune-up kits are still
available for every brake/saw table ever manufactured.

Forms 48" industry standard gutter hood!

Custom Form Profitable Gutter Hood
for Virtually any 5" or 6" K Style Gutter

Profitable & Easy....Here are 5 Reasons

1) Easy to do

- a. All you need is our Trim-A-Gutter™ tool and brackets (now in both 5" and 6").
- b. It's simple to operate our tool and easy to install the hood.
- c. No specialized training needed.

2) Inexpensive

- a. The cost per foot of this system is one of the lowest available.
- b. No franchise or marketing fees.

3) Flexible

- a. Choose from hundreds of coil colors vs. only a few with other systems.
- b. Choose the metal that best suits the job.
- c. Make any style hood the customer prefers that fits their job. Choose fascia or roof mount, dome or low profile...it's up to you.

4) Profitable

- a. Competes with high end hood systems at a premium price, but without the costs.
- b. Avoid waste by using only the size of hood needed rather than the "one size fits all" approach of other systems.
- c. Expand endlessly. No limited territories.

5) Support

- a. Sales and Technical support available (8a-4p EST M-F).
