

## BLASTMASTER® 2.0 CU. FT. L-SERIES ABRASIVE BLASTING POT

An abrasive blasting pot is a pressure vessel used to contain a supply of abrasive material during the abrasive blasting process. Used as part of an abrasive blasting system, the abrasive blasting pot delivers a mixture of abrasive and compressed air to the blast nozzle for surface preparation. The Blastmaster® 2.0 Cu. Ft. L-Series Abrasive Blasting Pot is ideal for small industrial abrasive blasting projects and areas that are difficult to access with larger equipment. Typical applications include automotive restoration, concrete preparation, construction equipment maintenance, farm implements, and touch-up work.

### **SIMPLE CONTROLS**

The Blastmaster® 2.0 Cu. Ft. L-Series Abrasive Blasting Pot eliminates the need for an inlet valve, outlet valve, and twinline hoses, greatly simplifying operation and maintenance.

### **PORTABILITY**

The lightweight design makes the Blastmaster® 2.0 L-Series Abrasive Blasting Pot ideal for mobile work, where the operator may be in an area difficult to access with large equipment.

### **REDUCED COST**

The Blastmaster® Bantam Abrasive Metering Valve precisely meters most abrasives, reducing the amount of abrasive consumed, increasing production rates at the nozzle.

The cast iron Blastmaster® 153 Remote Control Valve offers activation and deactivation control of the abrasive flow at the nozzle.

The Blastmaster® 2.0 Cu.Ft. L-Series Abrasive Blasting Pot has a heavy-duty handle and solid rubber tires for maneuverability quickly and easily around the work site.

The Blastmaster® Bantam Abrasive Metering Valve precisely meters most abrasives, reducing the amount of abrasive consumed, increasing production rates at the nozzle.

# BLASTMASTER® 2.0 CU. FT. L-SERIES ABRASIVE BLASTING POT

## KEY FEATURES

Includes 25 feet of coupled 1/2" I.D. heavy-duty abrasive blasting hose

Solid rubber tires

Heavy-duty triangle handle

Dished head

Includes four type 1 ceramic nozzles

Empty weight 126 lbs

Overall height 38"

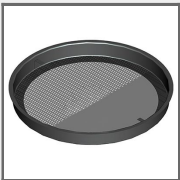

Fill height 38"

Width 24"

Depth 29"

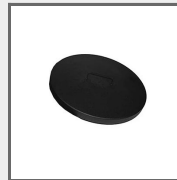

## OPTIONAL ACCESSORIES

### Abrasive Screen

The abrasive screen keeps over-sized abrasive and debris out of the abrasive blasting pot.

### Heavy-Duty Lid

The heavy-duty lid helps keep rain and damaging debris out of the abrasive blasting pot.

### Threaded Nozzle Conversion Kit

Convert easily to long lasting 1-1/4" threaded nozzles.
